Group and Ensemble Instruction

Group or Ensemble Instruction
and Performance Classes
are mainstreamed to include children, adults and
seniors of different ability levels.
Gifted students are given the opportunity
to mentor those with differing learning
or physical challenges

ColorSoundation

A groundbreaking method of early music instruction
based on the association of colors, notes, and tones.

Music Therapy

DFTM provides the referral for services of a Board
Certified Music Therapist for individuals whose needs
require a program in which music is used as a vehicle
to support non-musical goals.
Music instruction (the learning to play an instrument
or sing) is a secondary goal of music therapy.
Music Therapy is an allied health profession and may
be covered by some insurance or a Medicaid Waiver
Program.
