

Vote YES For Transit is a coalition of working San Antonians, neighborhood leaders, community advocates and business owners who support PROP A, which rededicates an existing sales tax allocation to maintain and improve VIA transit service by funding the agency's Keep SA Moving plan.

WHAT the plan does

VIA's Keep SA Moving plan offers better service to support our community's coronavirus pandemic response, aid in our economic recovery, and provide a vital lifeline to working San Antonians and their families.

- **Increase investment in the top ridership corridors.**
- **Expand late night and weekend service.**
- **Increase operating speeds.**
- **Increase frequency on the most traveled routes.**
- **Expand innovative options like on-demand service.**
- **Introduce technology upgrades for better customer service.**

WHY it is important to vote YES on Prop A

Maintaining and improving VIA service is essential, but for years, San Antonio has failed to adequately fund public transit, dedicating just half of the sales tax portion Austin, Houston, Dallas and other Texas cities spend on their transit systems.

Voting YES on Prop A will maintain and improve VIA service and benefit all San Antonians by playing a vital and necessary role in our pandemic response, our economic recovery, and our long-term prosperity.

VIA aids in our pandemic response by getting thousands of front-line workers and essential employees in health care, grocery, food service, distribution and other key industries to and from work every single day. The people our community relies on rely on VIA.

VIA will play a vital role in our recovery by getting more people to and from work, school, health care appointments and other important destinations as our economy continues to reopen and expand.

VIA is crucial to our long-term prosperity. A robust and efficient transit system is essential to maintaining and improving mobility for all residents, whether or not they're transit riders, as our city adds over one million new residents in the coming decade.

VOTE YES FOR TRANSIT

Keep SA Moving to benefit **all** San Antonians

- ✓ Voting **YES** is essential to maintaining and improving VIA service.
- ✓ Voting **YES** is crucial for getting front-line employees to and from work.
